

1	WASTE RECLAIMING APPARATUS	12.27	..Indicator or sensor detail
2	CARBONIZING APPARATUS	13 R	.Combined
3 R	MACHINES	14	..With scrub-board
4	.Convertible	15	..With tank heater
5 R	..With gas, steam or mist treating	16	...Tumbler drum
6	..Static devices	17 R	..With soap supply
7	...With fabric carrying cylinder	17 A	...Dispenser on agitator
8	..Textile on cylinder	18 R	..With solvent recovery
5 A	..Limited area application	18 C	...Using condenser
5 B	..Relative movement of applicator and textile	18 D	...Using decanter
5 C	..In chamber	18 F	...Using filter
5 D	..Continuous textile feed and discharge	18 FAFilter on agitator
5 E	..With chamber seal	19	..With liquid extractor
9	..With successive fluids and plural tubs	19.1	...Disparate extractors
10	..Relatively transferable textile holder	19.2	...Centrifugal extractor and gaseous drier
11	..Plural tubs and relatively transferable textile worker	20	...Gaseous drier
12.01	..Single tub and automatic sequential operation mechanism	21	...Squeezer extractor
12.02	..Sequence control means responsive to a sensed condition	22 RRoller
12.03	...Temperature of the load	22 ADomestic with wringer
12.04	...Weight of the load	22 BRoller serves as reservoir
12.05	...Liquid level	23 R	...Centrifugal extractor (e.g., centrifuge)
12.06	...Unbalanced load	23.1	...With means to control or isolate vibration
12.07	..Dyer	23.2Including counterbalance
12.08	..Dry cleaner	23.3Vertical axis centrifuge
12.09	...With cooling means	23.4	...Including additional fluid handling means actuated by rotation of centrifuge
12.11	..Pneumatically actuated	23.5	...Including fluid supply means
12.12	..Special cycle specified (e.g., prewash cycle, permanent press cycle, etc.)	23.6	...Including impulsing means (e.g., agitator) within and independent of centrifuge
12.13	..With treating liquid filtering or reclaiming means	23.7Oscillating type
12.14	..Dewatering detail	24Horizontal or nonvertical axis tumbler and centrifuge
12.15	...With heating means	25Shiftable to vertical axis centrifuge
12.16	..Motor control circuitry detail	26	...Independent vat and centrifuge
12.17	...Relay	23 AGuard ring on basket
12.18	..With additive dispensing	13 A	..With water softener
12.19	..Liquid handling	27	.Plural fluid treating machines
12.21	...Level or temperature responsive	28	.Combined operations
12.22With temperature modification	29	..With free element
12.23	..Sequence controller detail	30	..Tumbling, scrubbing and squeezing
12.24	..Clutch detail or transmission detail	31	..Scrubbing and squeezing
12.25	...With delay detail	32	...One work element reciprocable longitudinally of a roll axis
12.26	..Door safety latch detail	33	...Cooperating movable work element

34One movable with tub	80Downwardly directed scrubbing face
35	...Single movable work element	81Rectilinearly
36Pivotally movable	82	...Bed, only, movable
37Rectilinearly movable	83On vertical axis
38	..Scrubbing and liquid flowing	84	..Rotary
39	...Endless apron and scrubber	85	...Brush roller and roll
40Scrubber reciprocable longitudinally of apron	86	...Roll and platen
41	...Horizontal axis pivoted carrier scrubber	87Brush roll or brush platen
42	...Carrier roll and platen	88Resiliently mounted platen
43	..Squeezing and liquid flowing	89	...Vertical axis scrubber
44	...Squeezer and endless belt	90	...Horizontal axis scrubber
45Single endless belt	91	..Fixed scrubber and bed, movable carrier
46	...Roll and carrier roll	92	..Scrubbers
47	...Roller bed and carrier roll	93	..Scrubber bed or cage
48	...Movable tub, tray or cage	94	..Squeezing
49With shuttle squeezer	95	..Squeezer and textile cover
50Vertically movable	96	..Deformable receptacle
51	...Mechanical liquid pump	97	..Roll type
52	..Squeezing and dragging	98	...Planetary
53	..Impulsing and liquid flowing	99	...Roll and roll
54	..Impulsing and scrubbing	100	...Roll and roller bed
55	..Dragging and liquid flowing	101Resiliently mounted roller bed
56	..Dragging and scrubbing	102	...Rectilinearly reciprocable roll and bed
57	...Drag on vertical axis	103Fixed bed
58	..Tumbling and liquid flowing	104Single roll
59	...Spurting nozzle, thermal flow	105	...Fixed axis roll and reciprocable bed
60	..Tumbling and scrubbing	106	...Oscillating roll and bed
61	..Tumbling and squeezing	107Single roll
62	..Liquid flowing and liquid applying	108	..Chasers
63	..Scrubbing	109	...Nonrotatable bed
64	..Scrubber and bed, reciprocatory	110	..Squeezer and bed, both movable
65	...Bed reciprocable about a roll periphery	111	...Vertically reciprocable squeezer and vertically pivoted bed
66	...Both movable	112	...Opposed receding and approaching squeezers
67On horizontal axis	113	..Squeezer, only, movable
68Vertical scrubbers	114	...Cradled
69Unitary tub and bed	115	...Plural horizontally pivoted squeezers
70On vertical axis	116Bilateral squeezing faces
71Tub movable with scrubber	117	...Single horizontally pivoted squeezer
72Rectilinearly	118Bilateral squeezing faces
73In vertical plane	119Edge pivoted horizontal plate
74	...Scrubber, only, movable	120	...Rectilinearly movable squeezer
75On horizontal axis	121Bilateral squeezing faces
76Plate scrubber transverse to axis	122Vertically
77Plural scrubbers		
78Individually pivoted scrubbers		
79On vertical axis		

123With squeezer displacement	165Reciprocable carrier for sticks or frames
124Successively acting squeezers	166Rotatable skein stick
125	..Mountings	167Traversing skein stick
126	...For roll squeezers	168Endless belt stick carrier
128	..Squeezer roll strippers	169With skein stretching means
129	..Nonrotary squeezers	170	...Vertically reciprocable carrier
130	...With plungers or valves	171	..Movable liquid receptacle
131	..Impulsing	172	...Rockable or oscillatable liquid receptacle
132	..Oscillatory or rotary on vertical axis	173Fixed axis
133	...Bottom drive	174Vertical axis
134	..Impellers	175	..Fixed liquid receptacle
135	..Dragging	176	...Helical textile course
136	..Oscillatory or rotary on vertical axis	177	...Web or rope pleating in receptacle
137	...Top drive	178Conditioning chutes
138	..Dollies	179	...Conditioning chutes
139	..Tumbling	180	...Jiggers
140	..Cage type tumbler supports, bearings or drive	181 R	...With liquid supply and efflux
141	..Wobbly cage	182Rotating stock strainer
142	..Cage construction	181 DDiaper washer
143	...Compartmented	183	...With gas supply to liquid
144	..Imperforate receptacle type	184	...With liquid pump
145	...Compartmented	185And interconnecting sampler
146	...Fixed inclined axis	186And textile holddown
147	..Liquid flowing	187And textile holddown
148	..Liquid displacement and movable cage or carrier	188Skein supporting sticks
149	...Rotatable skein-supporting sticks	189Wound package, central liquid flow
150	...Wound package, central liquid flow	190Surgers
151	...Vertically pivoted cage-pump or carrier-pump	191Thermal flow
152	..Movable cage or perforate tray	192Surgers
153	...Oscillatable cage or tray	193Tubular conductors
154Vertical axis	194	...Textile holddowns
155	...Rectilinearly reciprocable cage or tray	195	...False bottoms
156Vertically reciprocable	196	...Covers
157	..Movable carrier in vat	197	...Elevatable textile supports
158	...Continuous textile feed and discharge	198	...Hollow wound package holders
159	...Skein carrying stick or frame in liquid receptacle	199	...Carriers
160Rotatable skein stick	200	..Liquid applying
161With skein stretching means	201	..Needle injectors
162Rotatable carrier for sticks or frames	202	..Roller
163Rotatable skein stick	203	...Intermittent liquid applicator
164With skein stretching means	204	..Endless belts
		205 R	..Tricklers and sprinklers
		206	...With skein supporting sticks
		205 D	...Diaper washer
		205 E	...Reel type
		207	..Liquid supply or vapor supply to liquid
		208	..Drains and overflows

209	.Fire or explosion preventers or fume removers	254Drive and drain
210	.Loaders, unloaders, or dumpers	255Drive and wringer rotation lock
211	.Limited area clamps	256	...Pressure applying or release mechanisms
212	.Elements	257Roll separation against spring pressure
3 SS	.Supersonic vibrator	258Power mechanisms
213	IMPLEMENTS	259Release through abnormal roll separation
214	.Combined	260Plural manipulative pressure adjustors
215	.Pounders	261And auxiliary release
216	..With plunger	262 RSingle manipulative pressure adjustor
217	...And valve	263 RAnd auxiliary release
218	..Valved	263 AToggle
219	..With material receptacle	263 BMain frame release type
220	.Scrubbers	262 AToggle
222	.Steamers	262 BSlow adjusting
223	.Washboards	264	...Guards, guides and feeds
224	..Brandboards, soap holders, and soap supply	265Movable guide or feed
225	..Splash guards and breast boards	266Feed or idler roll
226	..Rubbing surfaces	267Apron between rolls
227	...Brush type	268Apron to or from rolls
228	...Sheet or slab	269 R	...Gearing and bearings
229Surface design or elevation	269 BBearing structure
230	...Of slats, bars, or tubes	269 CStop or reversal control
231	...Of rollers	269 CAMain frame release type
232	.Tubs	270	...Strippers
233	..With scrub surfaces	271	...Drains
235 R	ACCESSORIES	272	...Mountings
236	.Combined wash bench and wringer support	273On horizontal axis
237	.Washtub or wash boiler attachments	274On vertical axis
238	..Wringer supports	275On horizontal track
239	.Wringer supports	276	..Clamps
240	.Clothes supporting or spotting boards	235 D	.Diaper washer
241	.Wringers		
242	..Flexible diaphragm squeezers		
243	..Twisters		
244	..Roller type		
245	...Combined		
247	...Enclosable		
248	...Rolls in horizontal plane		
249	...Interconnected functional units		
250Guide, roll pressure, and clamp		
251Roll pressure and clamp		
252Guide and clamp		
253 RRoll pressure and drive		
253 AMain frame release type		
253 BElectrical interconnection		
253 CRoll or bearing interconnection
